

July 1, 2019

The 90th Annual Convention of the Association will be September 17-18, 2019, at the Embassy Suites downtown Amarillo.

Don't forget to book your rooms before August 20, 2019, to get the PPROA special rate of \$119.

In the past, you have generously supported the PPROA Annual Meeting which is the highlight of the Association. This is the time when our President and Board of Directors have a chance to share our work and accomplishments with you. PPROA has made significant strides in the last five years to prove that we are more than just a participating logo at the bottom of an industry letter. There are many issues being addressed for this year's convention that were prevalent in the 2019 legislature.

Speakers this year will be:

Allen Gilmer – Drillinginfo

Honorable Jason Isaac – Life Powered, Austin, Texas

Jerry Simmons – Domestic Energy Producers Alliance – Harold Hamm Chairman

Jim Cardle – Texas Insider, Austin, Texas

Matt Barr – Cheniere Energy, Houston, Texas – LNG Exports

Bill Stevens – Austin, Texas – PPROA Governmental Affairs Report for the 2019 Legislative Session

Ethan House – EnergyNet, Oklahoma City, Oklahoma

With your support, we continue to be your voice and advocate on your behalf in state and federal issues which include the overreach of the EPA, Endangered Species, FERC, Texas Legislature, Texas RRC and Washington, D.C. We are working to cut your daily cost of doing business through our insurance programs.

The convention registration and sponsorship form is enclosed. We pray you will be a part of making this an amazing year! Please do not hesitate to call if you have questions. Thanks in advance for your generosity!

Sincerely,

Judy Stark, President

Panhandle Producers & Royalty Owners Association
